SUBJECT: Weekly Activities Report #33
13 - 19 September 1961

I PROGRAMMING COURSE

25X1A9a

[REDACTED] will be coming for 25X1A9a
a visit of one day on Monday, September 25. Because Dr.
[REDACTED] has been fully occupied getting ready for two over-
lapping courses which begin shortly, [REDACTED] will 25X1A9a
spend the whole day with [REDACTED] going over latest 25X1A9a
revisions of the description-of-persons program. Talking
to Agency people about programming, reporting on the APA
meeting of last week, preparing a current list of programs,
putting down thoughts on programming for DTR, preparing an
article for the OTR Bulletin, and writing to people knowl-
edgeable about programming, accounted for much of [REDACTED] 25X1A9a
time this week. It seems to be getting increasingly difficult
for both [REDACTED] to find time for their 25X1A9a
course assignments.
